

SHAPE International Cycling Club (SICC)

Shape Fest 18th September 2021 We're in!

By Liz White

Shape Fest – two words, one amazing event. This year we can get together and celebrate all the things that SHAPE can offer in one place. For the Shape International Cycling Club (SICC) this means that our members will be able to meet you in person and share with you their life in the club, whether it involves the weekly training rides, organised events at the weekend or just casual riding. Joining club rides can be quite daunting but this way you get to meet some of the personalities behind the shades and also sign up for The President's ride the following day. Come have a chat, find out which peloton you would feel comfortable in, or simply where you start your SICC adventure.

Where can you find us? Our members will be waiting to welcome you at the TREK tent, where there will also be a bike clinic for those of you with a bike that has an irritating niggle and outside of which will be some of the bikes that ride, race or do trail.

The President's ride – Yes, you read it here! Our President, Pino Rampini, will be heading up a ride, which will guide you around the local area, while our new sponsor Espace Bike, has also offered a water bottle for all those who participate.

The club will take this opportunity to officially launch its new logo, think about members who have moved on...Some of whom still wear the SICC jersey (it is been spotted in New York, The Falklands, Algiers and Virginia Beach already this year), and last but by no means least, look forward to meeting our new peloton friends.

See you there!
